911 Ground Zero Tritium Levels 55x Over Normal Update On The Micro Nukes In The WTC

By Ed Ward, MD
6-15-7

Verifying the Source of Tritium Levels 55 X the Normal Environmental Amount
Certified Laboratory Testing of WTC Debris Currently In Progress.

In a collaborative effort between Author/Artist/Survivor/Patriot Janette MacKinlay, Physicist Dr. Bill Deagle, MD, and Dr. Ed Ward, MD, MT, WTC debris has been received by a Certified Laboratory for key tests which may show definitive origination for the massive Tritium Levels in the WTC buildings.

7.5 gms of WTC dust has been submitted to a Certified Laboratory for this specific analysis. The pending results are about half way through preparation and will be available in about 1 to 2 weeks. The single sample was extremely minimal for adequate sampling of the massive damage left in turning 3 buildings into steel and particles, but may be enough to give irrefutable support for the origination of Tritium Levels present in the WTC buildings and prove beyond any doubt there was a nuclear reaction in the WTC buildings. Dr. Deagle should have the results by this Friday.

Elements, Testing, Theory

Sample Testing (ppms per USGS study for average amount):

Certified Laboratory Testing Request: Elemental Isotope Ratio Tests: All Isotopes of the following elements.

Niobium 93 - 8 ppm in sample (+/- 50%) - Nb 93 for extremely rare Nb 94 ratio.

Beryllium 9 - 3 ppm in sample (+/- 50%) - Be 9 for extremely rare Be 10 ratio.

Cobalt 59 - 6 ppm in sample (+/- 50%) - Co 59 for extremely rare Co 60 ratio.

The entire test sample is one sample of small quantity, with extremely small quantities (parts per Million) of Isotopes and are checking for Isotopes in the range of billionths that should not exist in nature. Billionths will demonstrate massive creation if any of these three Elements show Any Isotope Ratio at all.

Neutron Activation produces rare stable isotopes in some elements. Any isotopes other than Nb 93, Be 9 and Co 59 for these 3 elements will be proof of Neutron Activation at the WTC site and will show the origin of the massive Tritium levels.

It is important to remember the amount of debris being tested regarding the relevance of a negative finding in this particular sample. The entire sample is only 7 grams (about 1/80th of a pound) out of 3 billion pounds of debris. Research suggests that only about 10% of debris directly affected by a nuclear explosion will show Neutron Activation. Dr. Deagle and myself encourage others with verified WTC debris to perform their own tests for the presence of isotope ratios that can only be formed during a nuclear reaction on their samples. The Tritium levels prove a nuclear reaction occurred. The isotope ratios will verify that proof.

List of Elements in the USGS analysis of WTC debris that should show readily detectable Neutron Activation:

Janette was at home, 113 Liberty Street, on 911 and was directly across Liberty Street from the South Tower. Her insights on that day make one feel as though they are present.

Patriot - Janette MacKinlay has been a guest speaker at 911 Conferences, the subject of news articles and several TV appearances. The 911 WTC debris tested by [Dr. Jo Bill Deagle](#) - During his November, 2004, [interview](#) on the false flag Oklahoma bombing (to destroy militia activism/credibility) with Dr. Deagle, Alex Jones elaborates on why it is my belief that Dr. Deagle is the premier, foremost expert on 911 evidence evaluations: "If I try to read his bio, it's literally ten pages long. He's worked for the US government at every level (before he found out the truth of government tyranny - which he has been desperately trying to expose to the masses since his discovery). And he has written some articles for the web, a very bold person, telling the truth. He's Dr. William Richard Deagle, MD, and every other D (Doctorate) you can imagine. I've never seen anything like this. This guy has worked in cybernetics, secret operations. The list goes on and on."

Jeff Rense - Jeff Rense has been vital in the dispersal of the Micro Nuke information. Without his valuable efforts, very few would know the facts of the Micro Nuke evidence.

Israel Zionists and US Fascists Murder USS Liberty Crew in War Plot - Operation Cyanide and the 303 Committee

Dead in the Water

During the Six-Day War, Israel attacked and nearly sank the USS Liberty belonging to its closest ally, the USA. Thirty-four American servicemen were killed in the two-hour assault by Israeli warplanes and torpedo boats. Survivors were placed under threat of prison for revealing the atrocity. An excellent BBC Documentary.

Documented announcement of proven facts of tyranny for at least 3 years as documented by http://video.google.com/videJFK_II - Massive Documented Evidence of the Participants of the JFK Assassinations - JFK II confirms the noting of the participants as named in "Take a Look at Operation Northwoods"

<http://www.thepriceofliberty.org/04/10/15/ward.htm>

Oct 14, 2004 by Ed Ward, MD.

Yes, there was a "Operation Northwoods" written and proposed to then President Kennedy by L.L. Lemnitzer (Chairman, Joint Chiefs of Staff), the document that was signed and approved by all of the Joint Chiefs of Staff has been declassified. You can also find G.B. Sr. connections with Brig. General Lansdale, Air Force General and Deputy Director of the CIA Charles P. Cabell (brother of Earle Cabell, Mayor of Dallas at the time of the JFK Assassination), Frank Sturgis and E. Howard Hunt. GB Sr. did work for the CIA prior to 1966, with his ties with Robert Mosbacher and Felix Rodriguez during that time. He also may have had a hand in Operations: 40, Mongoose, Bounty, Bingo, Dirty Tricks, Good Times, and Cyclone.

The Secret Government: The Constitution in Crisis - Bill Moyers 1987

How did US get to full fledged world wide tyranny? An Excellent Documentary to see the progression of tyranny. This is the full length 90 min. version of Bill Moyer's 1987 scathing critique of the criminal subterfuge carried out by the Executive Branch of the United States

Government to carry out operations which are clearly contrary to the wishes and values of the American people. The ability to exercise this power with impunity is facilitated by the National Security Act of 1947. The thrust of the exposé is the Iran-Contra arms and drug-running operations which flooded the streets of our nation with crack cocaine. The significance of the documentary is probably greater today in 2007 than it was when it was made. We now have a situation in which these same forces have committed the most egregious terrorist attack on US soil and have declared a fraudulent so-called "War on Terror". The ruling regime in the US who have conducted the invasions of Afghanistan and Iraq, are now banging the war drum against Iran. We have the PATRIOT act which has stripped us of many of our basic civil rights justified by the terror of 9/11 tyranny produced by the US government.

SAVE AMERICA! DEMAND AN HONEST VOTE! BRING OUR TROOPS HOME NOW!

STOP SPENDING AND START SAVING! - CUT THE GDP - GOVERNMENTS EXIST BY THE PEOPLE'S SPENDING - WHEN OUR 'REPRESENTATIVES' START RETURNING THE CONSTITUTION - WE CAN START SPENDING AGAIN.
